

Algorithms and debugging: unplugged to sequenced

4th Class

Print and cut along the dashed lines. These carry the **text a group reads**: a job to do, a brief to research, or notes to identify by. Check the lesson's teacher notes for how many sets each group needs and how they are used: some lessons hand out one card per group, others sort or sequence a full set.

Card A: Library sort

Put three story books back on the class library shelf in alphabetical order by the author's surname

Card B: PE line

Lead your group from their desks to a quiet straight line at the classroom door, ready for PE

Card C: Plant care

Water the classroom plant once, safely, and put everything away

Card D: Pack away art

Collect four paint pots, seal them, and return them to the art tray without spills
