

Algorithms and debugging: unplugged to sequenced

4th Class

Print and cut along the dashed lines. These carry the **text a group reads** — a job to do, a brief to research, or notes to identify by. Check the lesson's teacher notes for how many sets each group needs and how they are used: some lessons hand out one card per group, others sort or sequence a full set.

Library sort

Put three story books back on the class library shelf in alphabetical order by the author's surname

PE line

Lead your group from their desks to a quiet straight line at the classroom door, ready for PE

Plant care

Water the classroom plant once, safely, and put everything away

Pack away art

Collect four paint pots, seal them, and return them to the art tray without spills
