

How does it work? Steps inside an everyday job

2nd Class

Print and cut along the dashed lines. These carry the **text a group reads** — a job to do, a brief to research, or notes to identify by. Check the lesson's teacher notes for how many sets each group needs and how they are used: some lessons hand out one card per group, others sort or sequence a full set.

Choose who

Pick who to message. Mime cue: point to a classmate. Image cue: finger pointing at a contact list
