

LESSON 13

Text Formatting: Fonts, Sizes, Emphasis

60 minutes

ICT1: Introduction to the computer and word processing

Outcome M1.U2.2

WHAT THIS LESSON DOES

Learn to format vocational documents with appropriate fonts, sizes and emphasis. Compare noisy and clean versions of a sample paragraph before applying clean formatting to your proposal draft. Understand the less-is-more rule for professional appearance.

CURRICULUM OUTCOMES

Outcome	What the specification asks for
M1.U2.2	Work with a word processing document, apply different formats and insert tables and images.

WHAT STUDENTS SHOULD BE ABLE TO DO

- Apply font, size, bold and italic appropriately on a vocational document
- Practise underline and colour on a sample only, and judge when they become noise in formal documents
- Apply the less-is-more rule to readable vocational documents
- Format the proposal draft with a readable font, clear heading and exactly one key bold or italic emphasis (no underline or colour on the final proposal)

BEFORE THE BELL

- Door/login check: every student can open 03_proposal_draft (or start recovery immediately).
- Optional shared or printed 4-line Something Real starter for absentees to finish during Key concepts.
- Prepare one projected clean versus noisy sentence pair.
- Pre-load 03_formatting_practice with sample heading and paragraph as the default support file.
- Prepare one anonymised student-style proposal sentence for a 60-second live three-move demo before Portfolio Build.
- Door/login file check for 03_proposal_draft. Optional shared 4-line starter for absentees. Confirm cloud access.
- Prepare one projected clean vs noisy sentence pair if possible.
- Students need Word Online or Google Docs and Project Portfolio access. Pre-load 03_formatting_practice with sample text as the default support file, not only an aside.
- Students need existing 03_proposal_draft open. Prepare one anonymised proposal sentence for a 60-second live three-move demo. Plan three mandatory visual checkpoints during the block.

Text Formatting: Fonts, Sizes, Emphasis

HOW THE LESSON RUNS

5 min	introduction	Introduction
6 min	content	Key concepts
15 min	activity	Step-by-step task
2 min	content	Common issues
22 min	activity	Portfolio Build
5 min	content	Reflection
5 min	summary	Lesson summary

TEACHING MOVES

- Project clean versus noisy, then read Do-this-today and the colour boundary chorally before practice.
- State aloud: required clean path only; optional blocks are skip-ok.
- Flag "select text first" live before the first Bold click.
- Default slow typists to the pre-loaded practice file after about 4 minutes.
- Before Portfolio Build, demo the three-move quick order on an anonymised proposal sentence for 60 seconds.
- Run three mandatory checkpoints (body font, heading, name-the-emphasis) and bank 03_proposal_draft with the verify checklist.
- Common issues is a one-minute point, not a full teach.

WHAT TO WATCH FOR

- Applying formatting without selecting text.
- Over-formatting the entire document; keep one key emphasis on the real proposal.
- Taking practice colour onto 03_proposal_draft.
- Selecting hard-to-read fonts; guide towards standard 11-12 pt typefaces.
- Editing the wrong file or renaming the proposal.

DIFFERENTIATION

- Support: pre-typed 03_formatting_practice; paired work on the comparison if needed.
- Extension: second matching heading on 03_proposal_draft; still one emphasised phrase only.
