

LESSON 10

Banana Stamp

30 minutes

Coding and Creative Projects

WHAT THIS LESSON DOES

In this lesson, students will learn how to create a banana stamp using Scratch. They will learn to control the stamp with their mouse, change its colour and appearance, and clear the canvas.

WHAT STUDENTS SHOULD BE ABLE TO DO

- Understand how to create and control a sprite in Scratch.
- Learn how to use the Pen extension in Scratch to create a stamp effect.
- Develop the ability to make a sprite follow the mouse pointer in Scratch.
- Learn how to use the stamp command to leave a trail of sprite images.
- Understand how to use the 'erase all' command to clear the canvas.
- Learn how to change the colour and appearance of the sprite with each click.

Banana Stamp

HOW THE LESSON RUNS
Introduction
Create a new project
Add the Banana sprite
Add the Pen extension
Make the Banana Follow Your Mouse
Stamp the Banana
Clear the Canvas
