

Animating Characters: Moving and Changing Costumes

40 minutes

Creative Coding Challenges

WHAT THIS LESSON DOES

Get ready to create a lively dance animation! Follow simple steps to make a character dance on stage by changing costumes every second. By the end, you'll have your own exciting dance party animation to share!

WHAT STUDENTS SHOULD BE ABLE TO DO

- Understand how to add characters and backgrounds to a project.
- Learn to change character costumes to create animation.
- Master the use of loops to repeat animations continuously.
- Control the speed of costume changes to create rhythmic dance moves.
- Develop skills to animate multiple characters simultaneously.

Animating Characters: Moving and Changing Costumes

HOW THE LESSON RUNS

Introduction

Create a Scratch Project

Add your Character

Set the Scene

Changing Costumes

Repeat the Dance

Control the Speed of the Dance

Test the Animation

Wrap Up
